STARR FUENTES

Starr is a miracle worker capable of healing the energy of cancer and the energies that manifest as chronic disease. She devotes her life to the easing of suffering of all kinds. Being initiated into a long lineage of healers, Starr Fuentes has sought to broaden her knowledge by studying with Masters and attending Mystery Schools from around the world.

After these years of study with healers, masters, cuanderos, and shamans, Starr has dedicated her life to helping others with the full unfolding of their purpose, path, and destiny.

Starr has been leading seminars for several decades and is known throughout the world as a fountain of knowledge, compassion, and honesty. She has 52 certifications and can teach over 400 subjects. Her teaching style is animated, dynamic, and full of life. She combines the use of modern psychological tools with ancient healing and shamanistic traditions. Her years of travel and study have given her a unique perspective on teaching the fundamental issues of humanity.

THE DIMENSIONS

The world of physics holds true on the earth plane with the exception of dimensional states. In the 144 dimensions, all physical laws are voided and the impossible becomes possible. The knowledge of these dimensional states has been kept sacred by the shamans of indigenous tribes.

Most sacred teachings expose the student to certain dimensions. It takes many generations to bring together a map and the knowledge of dimensional states. The evolution of the material plane manifestation of spiritual growth in the world has been completed up through the throat chakra. We can communicate anywhere instantly, being limited only by the time it takes to get the equipment in place.

**Now it is time for the
THIRD EYE ENERGIES
TO APPEAR!**

As each century has "found" a tool that has changed that century, we welcome you to discover the tool that will "appear" this century. Dimensional states will make reality out of fairy tales as we clear the environment using third eye energies.

Each century needs its forerunners, its avant-guard who are ready to learn the laws and teachings of the century's tools.

THE NEXT LEVEL

The untapped powers of the brain and mind, as vast as they are, pale in comparison to the untapped powers of the soul. Each of us carries within the ability to navigate the time-space continuum.

The human race needs to let go of self-imposed limitations of what is possible and impossible. The movement of this energy through the first group of people in the dimensional stages breaking the hold of "physical plane laws" is essential to our growth this century.

Most of you have had the experience of moving dis-ease out of the body. Now it is time to move onto bigger things that effect the masses and the well being of all on this planet.

This century will see a difference in the way we move from place to place. The way that we elect an official will come to a level based on truth and integrity. We will clear pollution and we will change the court system. The profound changes in you will occur on cellular levels, and you will have leaps of physical plane breakthroughs.

You need not have blind faith, for by the end of the month you will have the experiences of a "Third Eye Century."

IMPOSSIBLE
BECOMES POSSIBLE"**
