# Dimensional Mastery

with Starr Fuentes  
and Zabe Barnes

*Expand Your Reality*

September 9 - October 9, 2015

# The Dimensions

The world of physics holds true on the earth plane with the exception of dimensional states. In the 144 dimensions, all physical laws are voided and the impossible becomes possible. The knowledge of these dimensional states has been kept sacred by the shamans of indigenous tribes.

Most sacred teachings expose the student to certain dimensions. It takes many generations to bring together a map and the knowledge of dimensional states. The evolution of the material plane manifestation of spiritual growth in the world has been completed up through the throat chakra. We can communicate anywhere instantly, being limited only by the time it takes to get the equipment in place.

We are now moving into the "third eye" chakra and things here to fore considered to be myth or only accomplished by saints or masters are becoming a reality for the initiated.

*Now it is the time for the third eye energies to appear!*

# The Next Level

*The untapped powers of the brain and mind, as vast as they are, pale in comparison to the untaped powers of the soul. Each of us carries within the ability to navigate the time-space continuum.*

- *"Where the impossible becomes possible"*
- *Gain the experiences of a Third Eye Century*

*The human race needs to let go of self-imposed limitations of what is possible and impossible. The movement of this energy through the first group of people in the dimensional stages breaking the hold of "physical plane laws" is essential to our growth this century.*

*Most of you have had the experience of moving dis-ease out of the body. Now it is time to move onto bigger things that affect the masses and the well being of all of this planet.*
